WEILER Precision Engine Lathes The number one choice for apprenticeships and vocational training. The perfect solution for one-off and small batch production in craft and industry workshops, in tool making and jig manufacture. Made and assembled in Germany.

**Engine lathes - WEILER**  
Lathes are used in woodturning, metalworking, metal spinning, and glassworking. Most suitably equipped metalworking lathes can also be used to produce most solids of revolution, plane surfaces and screw threads or helices. Ornamental lathes can produce three-dimensional solids of incredible complexity.

**Used Lathes | Engine Lathe For Sale | Precision Lathes ...**  
Engine lathe is the name applied to a traditional late-19th-century or 20th-century lathe with automatic feed to the cutting tool, as opposed to early lathes which were used with hand-held tools, or lathes with manual feed only.
