Griffiths' QM text is usually the standard text in undergraduate QM courses. But DO NOT BUY this edition! Buy the US edition, with the picture of a cat on top. The quality of this edition is appalling! There is, in fact, a comment by the author himself expressing anger over Pearson butchering the contents of the book.

Search Tips. Phrase Searching You can use double quotes to search for a series of words in a particular order. For example, "World war II" (with quotes) will give more precise results than World war II (without quotes). Wildcard Searching If you want to search for multiple variations of a word, you can substitute a special symbol (called a "wildcard") for one or more letters.

9781292024080: Introduction to Quantum Mechanics: Pearson ...

Griffiths is a great writer, with a sense of humor that shines through some pretty heinous maths, clearly explained. The discussion of the philosophical realm of quantum mechanics, with wierdness and paradoxes, is accessible and clear while being great food for thought and a stimulating starting point.
