Survey respondents remain resolute in their belief in real estate as an attractive investment asset class despite strong political and economic headwinds, according to the Emerging Trends in Real Estate, Europe 2020 survey. Despite political uncertainty and rising construction costs, PwC still foresees an active European real estate market in 2020.

Emerging Trends in Real Estate®: Europe 2020 - PwC

Emerging Trends in Europe 2019 ranked the real estate markets in major European cities according to their overall investment and development prospects. With some of Europe's major markets judged to be peaking, attention is shifting to smaller, dynamic cities; the "risking stars".

Emerging Trends in Real Estate®: Europe 2019 - PwC

The yield on TIPS is the real, or inflation-adjusted, yield. Thus, the gap between the two yields is the market's expectation of inflation. The breakeven rates in the United States and Europe fell sharply at the start of the crisis and have since risen but remain below the pre-crisis level. In other words, investors today expect that ...

Weekly global economic update | Deloitte Insights

Global debt markets activity is gaining momentum. US high-yield bonds are amongst the best performers - driven by companies seeking to refinance and an increased appetite by investors for high-yield debt. The GCC debt markets have also surged in 2017, with sovereign debtors accounting for the lion's share, followed by corporates.
