There are two main types of clutches - disc- sprung hub and solid hub. The springs in the center help reduce clutch chatter. Most street clutches have a sprung hub. A series of six to eight springs are used to absorb a small amount of the impact from the spinning flywheel as it grabs the stationary clutch.

Manual Transmission Clutch Guide

Have the driver start the car with the gear shift in neutral, right foot on the brake.

Then, with her left foot on the clutch (all the way to the floor) and right foot on the brake, shift into first gear.

Have her take her right foot off the brake and slowly let the clutch partially out and see how it moves the car.
